

IN LHX ATTACK CHOPPER THE ENEMY SHOOT ON SIGHT

Take off for the harriest flight of your life in LHX Attack Choppor

The first realistic helicopter simulation for the Mega Drive with true 3-D
polygon graphics, from the people who brought you F-22 Interceptor.

Armed with a multiple range of missiles, zoom straight to the very

heart of the world's hottest battle zones aboard the experimental LHX, or the AH-64 Apache gunship. And get a bird's eye view of the action from the cockpit or any of seven external angles.

Take on 30 different classes of mission, including air to air and ground attack. Fly through a bewildering variety of weather conditions and take out 40 types of enemy targets.

Oh. And keep your head down.

UNFORTUNATELY, SO DO THE REAL PROS IN NHLPA HOCKEY

Same goes for NHLPA ™ Hockey '93, the new-feature-packed sequel to the multi award-winning EA Hockey, featuring real pros. 'Cause those guys don't mess around.

With NHLPATH Hockey '93, you can give as good as you get. Hook, trip, and bodyflip your opponents. And get their teeth rattling with extra hard body checks, at the same time as maintaining "incredible balance"

when you take a hit. Pull out super slap shots and smash the backglass with the power of your shooting. You can even test your team management skills to get your team playing with the right blend of aggression and ability. '93 also introduces a brand new species. The intelligent goalminder. He can dive, lunge, kick and skate out of his crease to clear loose pucks.

Performance statistics for every player are tracked automatically, and with the power of EEPROM backup, are constantly updated and saved to the cartridge together with playoff games in progress.

So what are you waiting for, get your skates on and fly down to your local store now!

SUPER NES JOYPAD DEBACLE

In last month's News section we reviewed some new lopper Super NES toypads. However, what we neglected to mention is that these imported peds are not compatible with UK Super Nintendos. This is because Nintendo have rewired the joyped ports doh! However, a converter may be in the offing. For the letest information, give Advanced Console Entertainment a bell on 071 383 0480.

Currently in production is a Megadrive version of the massive Atan coin-op, Gauntlet

If you've just arrived on this world and have no idea what this game is about, listen up. You (and a pet in two player mode) adopt the persona of either a Wizerd, Warner, Elf or Valkyne, It's your job to run around the eight-way scrolling mazes in search of the elusive exit. On the wey, you blast many meanles and collect treasure

The conversion boasts just about all of the original coin-op's features, including every maze, each character and all the baddies. The only thing missing seems to be the four-player made (there are only two joypad ports on the Megedrive, see).

If the game manages to cepture all the thrills end spills of the original, it should be e right laugh. Look out for a full review in a future edition of MEAN MACHINES SEGAL

HAND-HFLD

So, you like Sonic the Hedgehog sh? Well, a whole new Sonic game has just been released by Grandslam - on hand-held LCD format! The name features more high-speed entics from the world's fevounte hedgehog as he bettles the twisted Dr Robotnik and his verious minions. Sonic the Hedgehog is out now, priced £19 99

There are many other Sega titles currently cropping up on LCD format, including (amongs) others) Altered Beast. Look out for an LCD lowdown in a future issue of MEAN MACHINES.

CLUSIVE . EXCLUSIVE . EXCLUSIVE

"Feast" your eyes on the first screenshots of Aliens Vs Predator, coming soon for your Super NES. From the screenshots if all looks rather jolly. Unfortunalely when Jazza saw it on his recent visit to the CES Show, he was startled and appelled by its craoness. Basically it's a Final Fight rip-off, with you controlling the Predator (who has learned rudimentary Karate, it would seem) as it runs around the playing area kicking the acidic excrement out of the Aliens. In that version, you could not play as an Alien and there was only a couple of attack moves! Hopefully, the game has been substantially overhauled since then. We wait with bated breath for the finished version.

F-117A TAKES OFF ON NES

Look out early next year for en 8-bit Nintendo conversion of one of Microprose's top PC simulations, F117A Steatth Fighter! From what we've seen of the

geme, it packs in the mejority of the PC features, including an extensive 3D map, loads of compaigns and generous leshings of doglighting ection. The game is at a very early stage of development at the moment, but as you can see from the screenshots, the game is coning logaliter pretty well

Want to know more? Well, you'll just heve to wait for the full preview and review thet's coming up in future issues of NINTENDO MAGAZINE SYSTEM

SONIC 2 NEWS

Work continues apace on Sega's hottest geme of the yeer, Sonic the Hadgehog II, due out in November. The game is all but complete, with the project now entering the Intensive play-testing

As you can see from our Sonic Il screenshots (these are ectuelly from the REAL game, by the wey, not just seelly decired plotures from Sorial I), the pletform-related gemepley of the original remains much the same. The eim is still to collect loads or rings and make your wey to the ext. Once again, Doctor Robotnik is plotting a schema of diebolical wretchedness

and it's basicelly up to Sonic the Hedgehog to sort him out - this time for good.

une for goods.

Just like the original, Sonic II teaturas some excellent original collections some excellent original collections are excellent original collections. The collection original collection origi

Perheps the geme's biggest edition is the inclusion of a new pail for Some the Hedgehog, He's e foo kille cherafter at Wo Tails (we're sure you'cen guess why). Apperently, a second Palyer can take control of him and interact with Sonic, adding dimensions of gamepley that have the potential to make the geme even better then Merici VI.

Well it all sounds rather sprifing doesn't It? Let's hope that the gene's pleytesters are going to improve on the lestability of the intrat gene, which wes, let's face it, way too easy. We'll keep you posted on the game's progress end hopefully get the review for our October or November issues of MEAN MACHINES SEGA.

COMMENT

Alten 3 immediately impressas with its dark, menecing graphical alyle, amazing parallex aeroliting and axcallent animation. The sound is equally superb, boasting some akill (it at acl inepprepriats) music and raucous blasting affects. The gamaplay is almost as impressive as the audio-fusulas. The game is quite difficult (capecially on the NORMAL and HARD layes), with a

crushing time limit and rock and Alians constantly getting in your wey. The only problem I can see with Alian 3 is the fect that the general per limit to change algoritism by between each lavel. Dear Jez

I was on th verge of buying a UK SNES when I noticed in MEAN MACHINES that they now cost around £55 in America. This made me rethink Immediately. There are just three questions I'm still not sure of. 1. Will an American SNES

(SCART) work on e British TV (with a SCART socket)? 2. Can you get an adaptor thet

will allow you to pley English gemes on the American SNES? 3. Will Street Flighter II be evailable in the UK soon and at en

effordable price? Oliver Bray, Fleel, Hampshire

JA7: 1. No. 2. No. 3. You'll have to weit until November. The price has yet to be sorted.

ВММММММООО

Dear Jaz me old Billy Jack Please answer these questions for me as I am a desperata man.

1. If the CPU on a SNES is a lot slower than a Megadrive s, how does it manage to run Street Fighter 2 at arcada speed? 2 How do you perform the

spinning priedriver with Zangiel? 3 How come some graphics on some mediocre Megadrive games ara total crap, like Fastest One Whilst others such as Gaiarias have brilliant, eye-popping,

arcade-style graphics? 4 Is Aeroblesters on the Megadrive just the same as the

arcade? Lee Dorbyshire, Wigan

JAZ: 1. Clever programming. 2. A full 360 degree joyped movement followed by punch. 3. it depends on the graphic artist eome ere good end some ere bed. 4. It's feirty elmiler.

FW000000

would be very grateful if you would answer the following

2. If it is, will its games ba educed in price? 3 Will Moonwalkar, EA Hockey

or WWF Superstars ever come out on the Game Gear? If so, when? 4 What is the best game on the Master System?

William Richards, Halkyn, Clwyd JAZ: 1. Going out where? Down the shops? 2. Probably. 3. No. 4. Wonderboy III t suppose.

YOOOOOAAAA AAR

Dear Jaz

I own a Megadrive and seeing as your mag is the best in the cosmos end that you're so cool, I thought I d ask you e lew questione.

1. I was wondering if Reinbow tsiands or New Zealand Story are ever going to be "officially released for the Megadriva? I've tried several mail order companies, but seeing as filive in Australia it's a real problem - thare is not one shop I know of that imports Jepenase Megadrive carts, so they ere considered real collectors items over here. So please answer my question, and if

thay are not going to be released officially, then why? Dean Wiley, Townsville, Australien JAZ: I doubt whether either will ever be officielty rateesed - Sega have loede of other, newer, better gemes to "officielty"

release.

There's an extra difficulty setting in this top road racer! Complete the King League on EXPERT level and the titles come up. Then a new MASTER difficulty setting appears. It's rook hard and only completely skillful players (tike us) will get anywhere on it.

Here's a cunning lip for lins 10pt racing gene if lenables you to stand a far better chance of teaching the coveted number one possition! All you have to do is select is two-player game but DONT have anyone controlling the second car! This stops the pretty good computer driver taking over, making it sightly easier to come first! Neat, huh?

However, there is a downside to this activity. The absent player's car remeins in the centre of the road near the starting line, making it very easy to smash into However, if you dodg a the car after the first lap, the other computer cars plow straight into it! Good one eh?

This is just helf of Neil Cravan's exhaustive (certainly exheusting to read - there ere no full stops!) guide More follows next month (if I don't lose his letter!).

PUNKS Easy! Use a flying kick or throw them!

GREASE MONKEYS

Use a throw or fiving kick. Remembar though, it there's a lots of them, pick one up and chuck him at the rest!

HUNCHBACKS

Thase guys are dangerous Use flying kicks on them, or throw them iost after they have jumped. Remember that if they get you, you must hit all the bullons in rapid succession to shake them off.

ARMOUR DILLO

Use any weapon you have and stand on the centre platform Wart for him to slow down then drop down pick him up and throw him! Repeal the process.

PYROMANIAC

Use flying kicks and move eway from this guys after each to avoid being toasted. If he fires at the ground, move up or down to another level and continue the attack when the fires runs out

DISC CUTTER

EEEASSSYYY! Duck down until he has fired his disc, then roll over to him and throw him before the disc returns.

MAD BOMBER

Watch out for the bombs these guys throw. The easiest way to kill them is to jump over the bombs and then throw them

Just tlying kick him as he approaches, than repeal the move as he slops flickering - indicating he s vulnerable to attack. Jump agein if he raisas his arm

CYBDRG D

Use flying kicks on him when this dude is in his human form, DON'T use the pola until he is in his cyborg form. Slay on the higher platforms and hit with the pole and This quy is history?

CYBORG D2

Use tlying kicks until the human transforms into his robot form. Make sure you perfect the lechnique at rolling when the machine attacks. Don't pick him up, or it's curtains! Roll towards him, punch and roll back. Repeat thal process.

SANTA CLAUSI

Keep tha pole until he appears then just hit him with it! It you va lost the pola, jump over the bombs and use flying kicks on him. Than wart until he's Ihrown another bomb Jump ovar the bombs, kick him and keep repeating this procedure until he s kicked the buckel

LEVEL 1-1, LEVEL 1-2 CHARACTER: ASTERIX

The first two levels are painfully easy and require no real skill. However, there are secret rooms on both levels and frees are accessed by knocking the binckwor, of the well and climbing inside. The first boss is easily defeated by jumping on him three times. The next boss is simpler estimated the second of the second of

LEVEL 2-1 CHARACTER: OBELIX

Choose Obelix for this level, When you come to the pools of water. throw in a rock and jump on that, Now you can smash the obstructing bricks end progress! There ere elso two secret rooms pecked with goodies to find A hole in the ground near the first pool leads to the first. The other is through a hidden passede in the underwater cevern in the bottom of the right-hand hall. To kill the boss. run from the left side of the screen end jump on his head then stey in the bottom right to avoid the bees. Every time he jumps to the right, punch him. He dies after three hits

LEVEL 2-2 CHARACTER: ASTERI

This level is a real race egainst time! You need to use an explosion potion to smash the rocks and thus complete the level

LEVEL 2-3 CHARACTER: ASTERIX

When you get inside the building use the green potion to make platforms on the lava so you can walk across. When you get to the top of the building, you can jump off the tett side of the roof of you want to find a secret room, or carry on off the right side to complete the level

LEVEL 3-1 CHARACTER: ASTERIX

Dodge the snowballs and kill the snowmen and when you have dodged the second lot of anowhalls, en extra life appears e tew stens away. Jump to it, as there's an invisible hole in the weyl Then tall down the hole, move left and the wave carries you to the

LEVEL 3-2 CHARACTER: OBELIX

Jump onto the ice cubes, dodge the birds and kill the snowmen, but wetch out because the ice is slippery. When you go through the exit, you have to find the fire potion which is hidden in a pot to the ter right to melt the Ice Continue and you should come to two pots. Hit the first pot to get some bonuses The key is in the second.

LEVEL 3-3

You are now inside a building. You have to work your way through using the moving pletforms until you get to e door. When through the door slide under the small gap to the right end then go through the next door efter you've completed a potton to the right. You will soon come to another

small deg. Slide through this for an extra tife. The boss jumps from left to right and causes snowballs to tell. Stay to the right side then jump on his head.

LEVEL 4-1

CHARACTER: OBELIX To find the key, enter the secref room via the first blue pot. When you come out, sink in the mud and you enter a room which takes you to the exit. By the way, there is on extre lite by the door in the mud.

I FVFL 4-2 CHARACTER: ASTERIX

On this level there are some huge cannons on the floor. Get inside one and drop an explosive potton to shoot vourself off. The vertical cannon fires you to the key in the cloud, making it simplicity itself to complete the level.

LEVEL 4-3 CHARACTER: ASTERIX

Slide under the gap and into the pot. Now if you jump on one of the stones, the other lifts, so jump on the flat one then onto the other end then jump on top of the

scenery to find several secret rooms When you come to a wall with a moving platform in front, throw potions and they demolish the well (don't stend on the platform or it collapses). Then dodge the falling rocks and when you reach the top, go left and fight the boss.

LEVEL 5-1 CHARACTER: ASTERIX

Go to the far right and jump up to the door on the roof and collect the explosive potion, then go underground. When you emerge, you are springboarded to the roof. Kilt the bird and collect the key and then find the door.

LEVEL 5-2 CHARACTER: OBELIX

Use the bubbles to cross the spikes then go underground. First go left to collect a potion so you can cross the harmful mud, then go right and use the potion to collect the key. Spring back out of the cave and go left to find the exit.

LEVEL 5-3 CHARACTER: ASTERIX

Dodge the falling walls and weights and when you come to the one way doors, tet the weights tall and move them, then dodge the guillotines. In the next room jump from platform to platform taking care to mies the spidere in their

LEVEL 6-1 CHARACTER: ASTERIX

Swim between the stars until you come to the pink monster, which sucks you inside! Walk through the Inside of the monster and then use a potion to open the door. When you come out, swim to the top of the screen and out of the water to collect the key. Keep moving right and at the end throw a potion into the water. Stand on the resulting platform and jump over to the right to find enother secret room!

There are many different masks in the game that transform Kid Chamalson, giving him with many different abilities. Here's the complete list, along with abengits and weaknesses where appropriate.

GHAOS MASK Makes Kid very spikey enabling him to cherge through solid concrete walls.

SPACE HELMET: This alien artifact fires a highly powerful last gun. Very good indeed, but extremely rare in the geme.

SAMURA! HELMET: Endows Kid with Samurai powers and e massive chopper! The downward thrust is excellent, well worth getting the hang of.

ARMOUR HELMET: Very good for surveying the farming. This mask gives Kid a better jump and ellows him to climb walls essential on some levels.

testada.

HOCKEY GUARD: This lets to throw exes and even boosts his jumping provides. Very good

SUPER HELMET: Excellent! The helm endows Kid with super sper and gives him massive jumps the take out enemies in the process?

OPER SKULL: This is pretty roavy Kid is changed into a

SKYCUTTER HELMET: Puts you on a skateboard. There's not much more to say about it, really.

fere are some minitips that dentify some of the nastier levels the game. There are also some profess that let you away the level

WARRIUR PASS, THE PINNACLE: This level is ten screens high, entailing lots of climbring. Avoid the teleporter in Dragon Spike to get away from this

BLACK PERIL, FORCED ENTRY: This one is another forced scroll effort - e real race against time. You can skip this difficult level by taking the teleport in The Woods of Despair II

BLACK PERIL, BLOODY SWAMP: Another forced scrolling stage Avoid this level by not taking the teleport in Blizzard Mountain

CHAOS MAZE: This one is REALLY tough! The best tip is to try and locate a Space Helmet and pul those diamonds to good use!

COMMENT

Dinosaurs certainty is a strange geme. Sure, the graphics are a ittle odd-bell. Ithough they are excellent. The still screan

shots look good RAD anough, but things are even

better in motion. What's really stranga about the game is its design. On the one hand, the game is packed with innovative and original teatures with stacks of challenging puzzles and leats of manual dexterity to make lite tough on you. On the other hand, there is en extra life dished out on pretty much every leval, so it's a long time bafora you have to use any of the unlimited credits at your diaposal, as if irem want you to complete the game overnight. Dinosaurs is very original, which is rare enough thing at the moment, and It is Indeed very playable, except for some etroclous slowdown problems But the trouble is unless you've got extraordinary willipower (It's way too easy to continue) and can resist the added temptation of the password system, Dinosaurs won't last you mora than a weekend. For this reason, end its undoubled graphicat

appeal. Dinosaurs is really one for the younger players.

These interlocking wells ecrall back and forth.

Mind the giant earthworms

cruehing any dino trappied between the hillves. ▲ The groovy rollercoaster of death

COMMENT

How crep do Irem think us players are? Not only does Dinosaurs teature unlimited continues, but extre lives ere given virtually every level AND there s e password system tool The upshot of this is that it's virtually impossible not to crack the entire game within e tew hours. Doh! It's a sheme, really,

because Dinosaurs is packed full of neat Ideas and features some great screens. Okay, so the game

slows down occasionally, but it doesn't mar the fun and enjoyment. What does do that is the lack of challenge. It's all over before you know it. Without all the player help and with a little more challenge, Dinosaurs could have been brill. As it is, only beginners and children will get anything out of it.

There are e fair lew waepons to bolf on to your ship in Sagaie for extra destruction-causing ebility. The geme gives you bombs and lasers from the beginning, but collection of power-up pods lets you boost their effectiveness. For example, power-up your bombine beys and you're allowed to fire off not one, but two at once. The ship's lesers can be boosted foo, ellowing for deedlier power and even vartically blesting attachments! For the defence conscious pilot, shields are elso everlable that absorb around five hits before being vapourised.

GRAPHICS

Small, weedy eprites, lacklustre graphics and eye-strain inducing flicker

auto-fire option

The blast frenzy isn't really successfully centured with these lecking sound effects

If you can get over the flicker. Secale does heve some fairly good bleating antice on offer

Loade of worlds to conquer, most of tham pretty herd to crack.

A fairly good blaatar rulned by awful graphics and some shoddy programming.

Robocop 2 is another horizontally scrolling platform blaster from Ocean. It's more or less a conversion of their home computer titles starring you es the running, jumping and shooting cyborg on a mission of doom. There are several levels to conquer before the finel showdown with Cain, who is now transformed into the deadly Robocop 2.

Dunng each mission. Robo arrests a cartein proportion of mojor criminals and seizes a set amount of drugs before he progresses to the next level. These nits are quite lough, and often e secret room must be found in order to complete the level. For instance. in level one there is a sacrat undarground sawerage way in which most of the Nuka is stored. As well as armour to improve on there are plenty of waapons tor Galahad to get his mitts on. Like the armour the strength of these weapons vary. Galahad starts with a short training sword capable of inflicting one hit point to enemies. This does okay for the first few levels, but as enamies get tougher, Galahad's weapons need to do the same. The dagger and long sword give one and two damage points respectively The Tempest blade inflicts two hit points and increases Galahad's speed and jumping abilities. The fion blade is the strongest sword damaging your enemies to the tuna of five points. Besides awards there are rune bombs and a suicide weapon which delivers 20 hit points to any enemy on screen in exchange for one of Galahad's lives. Like the armour the best weapons are the most expensive.

Nice intro sequence, Loads at options like ditticulty settings and pad contigurations

On the whole, decent enough, with smooth scrolling, great sprites and good backdrops

Some excellent 808 State-esque tunes elthough not wholly eppropriste. The sound effects aren't bad either

The controls are pretty smooth and response is tine, but there is some dodgy cottision detection on occasions

There are 22 levels, making for months of tough, addictive play

An excellent arcade adventure, marred only by a slight lack of originality

The Apache holds four weapon systems and the LHX carries three. Each has a specific combat role in each mission.

CANNON: Standard on both choppers is the 20mm chein gun. The armout piercing shells are excellent at dose renge and outo-targeted by the nevigation computer. You have 1000 rounds to dispose of.

SIDEWINDERS: The Sidewinder missila is devastating as an air-to-air attack weapon or for use on light ground targets. It is infra-red targeted.

HELLFIRES: The Helifire is a heal-seeking sir-lo-ground missile designed for taking out tanks ar other heavy army. It has a seven kilometre range,

ROCKETS: Folding Fin Aerial Rockete (FFAR) are fitted to the Apache only. They have a very short range (1400 metres maximum) but are useful for lov (lying attack curs on exemy installations.

The cockpit leyouts of both choppers are completely different. The Apache has most of the conventional instrumentation you'd expect, but the LHX has the latest computer-driven flight system. Both choppers use the seme nevigation computer that provides full intermetion on target distance and bearing, and a one mile reder scan system. arwin's theory of evolution expresses the belief that pre-historic man was e bl-pad capable of using his hands to corve intricate hunting tools Unfortunately of Charlie was completely wrong, as is meda pleinly obvious by the existence of Fred Flintstona. While Fred doesn't have a neck, ha does heve a job, a car, e wite, a bowling partner end e house in the suburbs of Bedrock

But the pleasont meyham of the Flintstones' existence is ruined when a certain Dr Butler appears in e time machine. After explaining he is a 30th Century zoo keeper, he whips eway Dino and Hoppy, the baloved tomily pets. Gazoo, Fred's alien buddy, is just about to reviuo his time mechine in pursuit when Dr Butler destroys it, scettering the perts ell over Badrock county.

Sad isn't it? Well before you start blubbing over your NES, there is hope. Fred has been assigned the job of hunting for the scattered parts of the time mechine. With the aid of his trusty club and the Flintstonos clan, Fred hes to make his way through jungles, past gangsters, and across walerways to hunt down the valuable shrapnet. He even has to challenge villains to basketball motchas on his guest! But when Dino and Hoppy are setely back in suburban Bedrock. the tamily that leughed in the tace of Dr Darwin, can tough even louder in the tace of Dr Butler. YABBADABBADOO!

-HANG ON IN THERE

As you might expect of a prehistoric man, Fred is tighting fit Not only cen he leap and run, he can also hang. It Fred wants to reach a platform above him he is able to crawl up using his chunky arms. The same principle tollows when the athlelic speman can't make a jump Rather than tall to his death, by grabbing the edge of the platform Fred scrambles to satety!

BICH backdrope and

apriles are instantly reminiscent of the Hanna Barbara certoon serias, and the various ara all as taithful as you'tt gat. Gamaplay-wise, the Flintstone Ia pratty atandard tare. It's yat another platform game and I couldn't realty find anything naw or outstanding in it that really makes the gama teet freah or exciting, Having sard that, The Flintatones tan't an awtul example of the ganre and will Howavar, If it's platform action you're after, you're batter off getting Supar Mario tt, Shadow Warrior, Kabukt or Rascua Rangars. All otter tar more in tha way of playability than this effort.

TOOLS OF HE TRADE

Although Fred's leopard skin etl-in-one doesn't trighten off enemies, some of his fighting tools do. The trusty club stays with Fred et all limas, it is particularly good et bashing anemies coming head on for a straight tight. Some ara more cunning however, and shoot al Fred with their pop guns. For foes such as these. Fred naeda to get his hands on the catabult. With his impeccable eiming abilities. Fred can take baddies out from a distance For those that assault from above Fred needs the axe, this travels in en arc and is also good at killing enamies at a distance.

COMMENT

During my mis-spant youth, I was an avid fan of The Flintstones. It is to this game's credit that it aucceeded in bring the mamories flooding back. The animation and graphics certainly evoke the "modern atons age famity", what

graphics certainly evolve the modern stones get animy', what with under a stone get a miny', what will be a miny to the modern stone get a miny to the modern stone and vitilising. Indirect state the miny that the modern standard state and vitilising the standard state and vitilized the standard state and the standard state and vitilized the standard standard

nicky situations, and the game suffers from quite a tot of aprits filters. These problems to themselves need not let the game down, but the leak of originality here. Relegates this foliust another NES pistform game to add to the ever graving pits. The Fituations is also quite an easy game, and no real challenge to pistform fisned. Deaptie my gripps, athough I quite anjoyed playing The Fituationes. I'm afreid you won't get a "Yabbadesbadeoi" out of mail.

BARREL OF FUN

During his journeys Fred comes across many harrels. Should he set about one with his club it opens up revealing a useful item Standard prehistone grub his burgars and popcorn helps to raise his fig sque, A haard brings Fred back to full file, and the axe and cetapult prove handy in disposing of enemies.

GREEN AND FRIENDLY

Despite hewing his spaceship destroyed by the evil Dr Butler. Gazoo is still ready to lend Fred ahand at various stages in the game When Fred wants to get to some barries but can't jump high enough, he has the channet to call on the inmedity later allow by pressing later. Causo of options. There are other situations in which he manages to save the racking of brains so don't forget he's there!

ADVICE CORNER

When Fred has almost managed to complete a stage, one of his friends suddenly oppears. They give Fred some useful advice about a boss he is opproaching. They may even pass on a weapon that helps him to beat the boss Filinstones fers will notice that for some strenge reason Berney hes dwed his has trown!

COMMENT

For those of you contemplating buying a pinball sim, the thing you probably want to know is whether or not this is better than Dragon's Fury. In the playability department things are pretty aven. The inertia of the ball is very realistic, and

there are no quirks in the game logic that cause the ball to rebound at strange angles. The aound too, maiches the classic rock opera of Dragon s Fury with wiid guilar solo s a-plenty. But I'm atraid it's at this point that Dragon's Fury leaves its rival behind, Basically Twisted Flipper lacks the variety necessary to make a pinbati sim interesting - thera just isn't enough going on. While a few sprites move about the screan, most of the graphics are static and short on detail. Bonus screens, which work wonders in Dragon's Fury are tew and tar between in this game. While the Jump Ramp bonua level is an impressive idea it is generally the only extra level that turns up regularly. The tour-player mode opens up the door for some multi-player tun, but the actual pinball action is just too dull to keep anyone interested for long. So in answer to the opening question, I'd say that although Twisted Filppar has some okay pinbati action, it's beaten hands down by Dragon's Fury.

COMMENT

IULIAN on tor ages at a time. This becomes a matter of routing. This is compounded by the fact that there's not enough happening on the table to keep your interest going between bonus screens - the amount of drop targets and trick shots is actually very limited. The graphics and sound are very sixck, and the ball movement is tarriv realistic (although I tound its movement a bit too heavy", as it the table was tilted forward too tar), but my vote goes for Dragon's Fury - it has more variety and is more

at-related tomfootary.

RELEASE DATE: SEPTEMBER GAME DIFFICULTY: EASY

CONTINUES: NONE SKILL LEVELS: 1 RESPONSIVENESS: 6000

Two three, and even four-player action, but

little else besides. Sad title screen as well

Some nicely drawn and animaled sprites, but not enough of them

Some air punching, soft rock riffs and decent bing-bong pinball sound effects

The pmball 'feel' is successfully reproduced, which means its easy to get into

The absence of enough bonus screens means monotony soon starts to set in

A realistic pinball sim that doesn't offer enough challenge or variety. Dragon s Fury is a better alternative

congested it is time to use the Free Way Missiles fire diagonally up and down, and shringht ahead, and in both horizontal strediens to clear a route for the ship Collectively like in sales make a formidable weapon.

CLAW

One of the most useful items to pick up, the claw revolves around the ship and multiplies the amoun of firing ports, allowing the ship to enter further realms of alien dusting!

HUNTE

An old lavourile, and very handy it bool! The hunter weapons are heat-seekers that are drawn to on-screen enemies. They re not the most powerful of weapons but are excellent when the ship is taking attacks from all sides.

SNAKE

This weapon does as it says and snakes along the roof and base of the screen destroying static canons and bombs, which otherwise land to cause extreme havoc and confusion.

In Thunderforce IV there's leade of scrolling fun to enjoy, because the space in which the Rynex moves isn't restricted to the lop and bottom of the screen. The game scrolls up and down to reveal a messive playfield, packed full of enemies. Hemember where

ATOMIC RUNNER

oming soon, to charge around Megadrivas arywhere will be Atomic Runner, alies Chelnov rom Date Fast

ou pley Chelnoy, the son of an Incradible scientist. ho finds himself launched into the raelms of a ightmara, battling against an alien invasion. ntortunately your lather is killed in the melee, but

before he croaks he describes to you the ewful truth that is your only hope. Apparently this marauding force had been to Earth thousands of years ago and could be traced back to before even the dewn of

However, being an all-round haro, you're able to combat the allen manage across many levels of scrolling blest 'am up chaos. From what wa'va sean. already Atomic Runnar has some of the best graphics. yat seen on the Megedrive with pulse-racingly suparb music to match. Look out for Alomic Runnar in your favourita games emponum and check out MEAN MACHINES for the full raview!

Just when you thought the last punch had been thrown on the Super NES, Cultura Brain raisesa Golden Fighter, It's a twalve magabit cart contening plenty of fist frivolity. Thera's the chance to enter ona-on-ona competitions. where players can aither fight each other or the computer, or alternatively pley in a Double Dragon style beet em' up with all of the divarsions it entails. straet lighting. Each opponent has a standard set of movas es well as some specialist individual ones. Goldan Fightar looks pretty good, but things are a tad shaky in the playability depertment. Read the full review in en up coming edition of the all-new NINTENDO MAGAZINE SYSTEM

You've got to leel sorry for Dirk the Dering. Every time ne rescues his quitnend from the clutches of the Dregon King she's snetched straight back again Wouldn't il just be easier all round it he just dumped

Supar NES Dragon's Law, Dirk's third Nintendo outing. once more pits Dirk egainst his scaled edversary in a sprawling platform quest. As usual spacial ettention has been paid to the graphics, and as a result the aprites are big end well animaled, the beckgrounds are stuffed with parallax and detail and thera's codias of colour all round. The sound is great too, with the tunes being of the southing venety end top quelity However, how will it tare when it gets down to

Dragon's Lair doesn't reelly heve much of a reputation

Trakkies reigical Your tayounts sol-fi television series is about to werp it's way to a NES near you. Ultre Games have meneged to include all the style and intrigue of the hil saries in a game based around the adventures of the crew eboard the Starship Enterprise Star Trek is an action/adventure game which requires the player, as Kirk, to command the Enterprise through four different missions, ell of which form part of the main goal which is to repair a hole in space. Funnily enough, this was caused when our hepless hero, Kirk, accidentally created during an expenment in warp travel. If all this seems loo simple, bear in mind that the Enterprise was damaged by the ensuing blast when the hole was created and hee blown the ship into the depths of uncherted space Sounds cool eh? Wall, rest assured. We'll be reviewing the game fully in the next few months

latest Mario spin-off - Yoshi. The lovable fire-breathing dragon makes his first solo outing in this Fetris-Inspired puzzle game, co-starring none other

hen Mario himselti For some reason, a number of Koopa clan ellies are talling from the skies onto en arrangement of four

treys. Every time two creatures the same land on top of each other, they disappear. It is up to Mario to stop the trave of evil reaching the top of the screen by switching the plates around

Now, enter Yoshi. Every so often, a helt egg will fall Should it be the bottom half it will rest on top of the pile. The object now is to catch as many of Bowser's minions as possible between this and the top halt of the egg which falls later. Once the egg is formed it halches into a little Yoshi! The more enemies captured the bigger and more powerful Yoshi is, and the more bonus points awarded. This actuelly seems quite a diverting game, but those seeking full review treetment, especially concerning its lasting appeal, should await a future issue of our tab new Nintendo meg, NINTENDO MAGAZINE SYSTEM

for quality, with only the Gameboy version ever achieving any sort of preise out of all the other versions, com op included! Reat assured the full lowdown will be reveated in an issue of NINTENDO MAGAZINE SYSTEM coming soon!
